

Strung Out

Betty Blowtorch

I'm an addict, you're my drug
I'm strung out, on your love
Gotta have it, when I want it
There's no other
I'm all strung out

No way (keep it comin', keep it comin')
No way out (keep it comin', keep it comin')
No way (keep it comin', keep it comin')
All Strung out (keep it comin', keep it comin')

Latest attraction, give me some action
The heat and fire, my rock desire
Gotta have it when I want it
There's no other
I'm all strung out

No way (keep it comin', keep it comin')
No way out (keep it comin', keep it comin')
No way (keep it comin', keep it comin')
All Strung out (keep it comin', keep it comin')

I can't help these feelings down inside
I just know it's suicide
And there's no way out
I'm all strung out
No way out
I'm all strung out

I need another fix, big daddy
