

I Got To Tell Somebody

Betty Everett

I just gotta tell somebody
I got to tell someone
That you've become my morning sun
And we'll be together
From now on, yeah

I promised that I
Would never, never tell
But now your love
I won't keep to myself

But I got a real good feeling
That I've never known before
I can't hold back now
I want the whole wide world to know

I, I've gotta tell somebody
Got to tell someone
That you've become my morning sun
And we'll be together from now on

You are all I've ever need
Now I'm sure how you feel about me

You've got my heart
Reaching for the sky
I want to the world to know
That, that you're mine

Oh, oh, I've got to tell somebody
