

# Better

Betty Who

You look a lot like forever  
I'm made of yesterdays  
Even if you don't believe me  
I couldn't be less afraid

Sometimes you kiss me goodbye  
Like it's the end of all days  
Please don't walk away...

Do you hear me when I say  
I'm making every single day  
A little bit better, better, better  
You're making it better, better, better  
You're asking me to stay  
Begging me not to run away  
But I could never, never, never  
I would never, never

It's the way you make love to me  
It's the the way you look after me  
What do want from me  
Do want to make love?

I hate you most when you're silent  
Why won't you talk to me?  
You hate me most when I've gone away  
Just when you're near to me

I wanna' kiss you goodbye  
I wanna' kiss you goodbye  
Like it's the end of all days

Do you hear me when I say  
I'm making every single day  
A little bit better, better, better  
You're making it better, better, better  
You're asking me to stay  
Begging me not run away  
But I could never, never, never  
I would never, never

It's the way you make love to me  
It's the the way you look after me  
What do want from me  
Do want to make love?

It's the way you get through to me  
When you think that your cruel to me  
Do you want to be mean to me  
Do you want to make love?

Oh....Oh...

Then you kiss me again  
Then I'm forever your friend

Do you hear me when I say

When you kiss me again  
Then I'm forever your friend

It's the way you make love to me  
It's the the way you look up to me  
What do want from me  
Do want to make love?
