

Dreaming About You

Betty Who

You went from nice to meet you
To kissin' me on the couch
Dressin' me up in your jacket
A part of me in your mouth
Then you said you gotta go home to your girl
As you saw the sun was startin' to rise
I remember every way that it felt
Because every time I close my eyes

I'm dreamin' about you
I'm still lovin' you in my mind
I'm dreamin' about you
It keeps happening all the time
Every time I go to sleep
Even if he's next to me
I'm dreamin' about you I just wanna leave us behind
I guess I'm staying up tonight

I heard you flew to New York
I always thought that you'd call
I saw you walkin' down West Fourth
Isn't it nice in the fall?
Sometimes I still play that song in my car
I still have the shit you left on the floor
All these things that make me like you more
I don't think about them anymore

But I'm dreamin' about you
I'm still lovin' you in my mind I'm dreamin' about you
It keeps happenin' me every time
Every time I go to sleep
Even if he's next to me
I'm dreamin' about you I just wanna leave us behind
I guess I'm staying up tonight

You went from nice to meet you
To kissin' me on the couch

I'm dreamin' about you
I'm still lovin' you in my mind I'm dreamin' about you
It keeps happening all the time
Every time I go to sleep
Even if he's next to me
I'm dreamin' about you I just wanna leave us behind
I guess I'm staying up tonight

I'm still dreamin'
Dreaming about you
I'm still dreamin'
Dreaming about you
