

Cruel Minor Change

Beulah

My cheeks are red and now are swollen from the kisses
The strangers dance next to me
Waiting on the sunrise or the Armageddon
It doesn't matter
Which ever comes first
Did you see those fireworks exploding far
And fade like tears
Its where I waited
Its where I waited
And please don't say that something is wrong
I was at the party you never came
And please don't say that something is wrong
I was at the party you never came
And you lie
Our tickets folded and I hold it like a time bomb
Keeps on ticking I'm counting down
The laugh stop on this line is cool with guys station
Its as far as I get tonight
Did you see those fireworks exploding far
And fade like tears
Its where I waited
Its where I waited
Please don't say that something is wrong
I was at the party you never came
And please don't say that something is wrong
I was at the party you never came
And you lie
Cruel minor change
When nothings happen
It's still the same
The nights my stage
It won't be safe
We're just holding on again
Waiting for the end
Always hoping and
Please don't say that something is wrong
I was at the party you never came
And please don't say that something is wrong
I was at the party you never came
And you lie
