

Gravity's Bringing Us Down

Beulah

I never saw you up there
Cause you never made a sound
If I knew what you up to
I would have shot you down

Hey! Whatdya say?
I'm on the rebound
Watch me fall at the speed of sound
You train your fingers, cocked(?) and I'm feeling weak
Open wide, I'm paralyzed

You were workin' on the inside
Disconnecting the alarm
Always messing up your signals
Tryin' to turn me off

Hey! Whatdya say?
I'm on the rebound
Watch me fall at the speed of sound
You train your fingers, cocked(?) and I'm feeling weak
Open wide, I'm paralyzed

Over the hills
The frequency is breaking down
Don't want to guess but I think it's time we turned around

I'm soft, but I'll be alright
Soft, but I'll be alright
Soft, yea I'll be alright
Soooooft

Hey! Whatdya say?
I'm on the rebound
Watch me fall at the speed of sound
You train your fingers, cocked(?) and I'm feeling weak
Open wide, I'm paralyzed

We're getting high
But we're still feeling down
Gravity has a way of pinning us to the ground

I'm soft, but I'll be alright
Soft, but I'll be alright
Soft, yea I'll be alright
Soooooft

Lonely, I'm just
Lonely, I'm just
Lonely, I'm just
Lonely,
