

Silver Lining

Beulah

Punk rock
Was my first girl
She left me a scar
So I have her still

She's not young
But she's not old yet
We share the same sun
But hers never sets

You want it
Silver lining shining for you
You got it
Dark cloud always waiting for you

Weightless
You're tumbling through space
I remember her voice
But not her face

Floating
But she's always near
She wants to stay
But she can't stay here

You want it
Silver lining shining for you
You got it
Dark cloud always waiting for you

Frozen
In window displays
Where did you hide
All those days we'd waste?

Fading
But I see her still
She'll always be
My punk rock girl
