

# Stay

Beulah

We run around in circles  
Stumble into hurdles  
We can't move  
Were trying to make it easy  
Somehow we thought it would be  
We battled our frustrations  
Nobody's explanations could ever prove  
Oh, I need to hard do this  
Somehow the mark is missed

Stay, I just can't stand to let it end this way  
We got some much more than love to lose  
My heart is way passed bruised  
Almost, to late  
Oh, but it wont break  
If you would only...Stay

Everybody goes through stages  
We thumble through the pages  
We can't see  
Oh words can be deceiving  
But u cant just stop belivein'  
But hard times have their reasons  
Roll in and out like seasons  
So hold on  
Oh together we can heal this  
But I need your hand to feel this

Stay, I just can't stand to let it end this way  
We got some much more than love to lose  
My heart is way passed bruised  
Almost, to late  
Oh, but it wont break  
If you would only...Stay

Ohhhh...Why don't you...  
Stay, I just can't stand to let it end this way  
We got some much more than love to lose  
My heart is way passed bruised  
Almost, to late  
Oh, but it wont break...

Stay, I just can't stand to let it end this way  
We got some much more than love to lose  
My heart is way passed bruised  
Almost, to late  
Oh, but it wont break  
If you would only...Stay...stay

Why don't you...stay
