Castle In The Clouds

Beverley Craven

You can waste your time building barriers Spend your life trying to break them down again Like an island, in a sea that breathes revenge When we talk sometimes you're a looking glass Every word from the blueprint of your past In the distance there's a castle in the clouds And our love will make us strong together We can be in love forever Just the two of us When I get lonely, hold me We will understand each other You will be my friend and lover When we're far apart You're in my heart I'm in your dreams

So you call a friend up for company Drown your tears at a table set for three There's a shoulder and a change of scenery But when you wake tomorrow you're back again And you wonder where it's all going to end In the distance there's a castle in the clouds

And our love will make us strong together We can be in love forever Just the two of us When I get lonely, hold me We will understand each other You will be my friend and lover When we're far apart You're in my heart I'm in your dreams
