Move On

Beverley Craven

You've got to stop blaming The people who love you And take us for who we are 'Cos nobody's perfect We all make mistakes And no one can change the past She feels as if nothing she does is enough For your love Did you notice she was fighting back the tears 'Cos she still feels guilty after all these years

You've got to to move on Got to move on And give a little bit back After all she's done You've got to move on Got to move on Gotta get over it And give a little bit back

You echo your role-model When you get angry And stir up the memories If that were your son When he reaches your age Imagine the way you'd feel Forgive me for saying I'm right And you're wrong in a song You could end up repeating your history 'Cos with all that baggage You cannot break free

You've got to to move on Got to move on And give a little bit back After all she's done You've got to move on Got to move on Gotta get over it And give a little bit back

You've got to move on Got to move on And give a little bit back After all she's done You've got to move on Got to move on Gotta get over it And give a little bit back
