Every Step

Beverley Knight

Started out with a dream and a fire
It brought me to the place where I stand today
Got a handle on my desire
I chose a better path to make it here my way

If I have my time again
There's no one I'd rather be
If I walk this world again
I'll take every step as Me

Seen the good and the bad flying higher
When you rise too fast you can fall so far
All I wanted to do was inspire
Just keep my head up high and to the stars

If I have my time again
There's no one I'd rather be
If I walk this world again
I'll take every step as Me

We have one life to live
Take every chance we get to be happy
And everyday I'll strive to keep this dream alive

If I had to do it again
If I had to do it all over
If I had my time again

If I have my time again
There's no one I'd rather be
If I walk this world again
I'll take every step as Me

If I had to do it again
If I had to do it all over
If I had my time again
