Rewind (Find A Way)

Beverley Knight

Rewind the track!

Restart, retrigger, press rewind and you just come again
Reset, reprogram wheel it back and you just come again
Do do do do do
Restart, retrigger, press rewind and you just come again
Reset, reprogram wheel it back and you just come again

Funny how, when in love, everything your baby does has meaning
Then it ends, love is spurned
Then your sanity returns
You're seething

What do you do?
(You scream, you shout, you fall about)
You do whatever suits you
(Your self control is left to doubt)
Revenge it seems so right
(You weep, you wail, you tell your tale)
To anyone who'll listen
Then when you find the time to chill
Discover life is out there still so...

(Find a way to start it again)
Bring it back and start it over
(Find another way to begin)
Fade to grey and turn it over
(Find a way to start it again)
Bring it back and start it over
(Again, again, again)

Most of us, in our lives made a choice and sacrificed our feelings
And who's to say that you're ok
When you feel like the layers of your soul are peeling

Oh, and I know all you want is solitude
'Cos you ain't in the mood (you're not in the mood)
But you gotta find a way to start again
(Find a way to start it again)
Bring it back and start it over
(Find another way to begin)
Fade to grey and turn it over
(Find a way to start it again)
Bring it back and start it over
(Again, again, again)
Ooh let me put it like this...

Restart, retrigger, press rewind and you just come again (said you just come
 again)
Reset, reprogram wheel it back and you just come again (I said you just come
 again)
Restart, retrigger, press rewind and you just come again (said you just come
 again)
Reset, reprogram wheel it back and you just come again (and again, hey)

(Ooh baby baby baby)
(Get up, stand up, get up, start over)

(Ooh baby baby baby)
(Get up, stand up, get up, start over)
(Ooh baby baby baby)
(Get up, stand up, get up, start over)
(Ooh baby baby baby)
Hey yeah
Oh, and I know all you want is solitude
'Cos you ain't in the mood (you're not in the mood)
But you gotta find a way to say
Restart, retrigger, press rewind and you just come again (said you just come
 again)
Reset, reprogram wheel it back and you just come again (I said you just come
 again)
Restart, retrigger, press rewind and you just come again (said you just come
 again)
Reset, reprogram wheel it back and you just come again (and again, hey)

(Find a way to start it again)
Bring it back and start it over
(Find another way to begin)
Fade to grey and turn it over
(Find a way to start it again)
Bring it back and start it over
(Again, again, again)

(Find a way to start it again)
Bring it back and start it over
(Find another way to begin)
Fade into grey and turn it over
(Find a way to start it again)
Bring it back and start it over
(Again, again, again)

(Find a way to start it again)
Bring it back and start it over
(Find another way to begin)
Fade to grey and turn it over
(Find a way to start it again)
Bring it back and start it over
