

Round And Around

Beverley Knight

Have you ever wondered why you
Sometimes see me smile
It's to tell you that I care
And the best thing you can do is
Come and follow through
Just to hold me
Just be there

I'm falling in love
I can't help myself
You're making it clear that I don't need no-one else
The state of the heart that just won't give in
Right here's where we start
'Cause you send me

Round and around and around round
Round yeah
Round and around and around round
That's what you do to me
Round and around and around round
I can't help falling in love
Round and around and around round
With you

Has it ever crossed your mind that
You might want to find
Something else or someone new
'Cause the pleasures that you give
I just don't want to share
Not with no-one
Just with you yeah

I'm falling in love
I can't help myself
You're making me weak
I don't need no-one else
The state of your heart
That just won't give in
Right here's where we start
'Cause you send me

Round and around and around round
Oh baby yes
Round and around and around round
That's what you do to me
Round and around and around round
I can't help falling in love
Round and around and around round
Oh let me tell you

Give me all the best you can
Make me feel you're the only man
Give me the touch that will bring me to
To my knees yeah
And now I know how your love can be
Hold me closer
Baby be good be good to me yeah

Can't help falling in love
Can't help falling in love
Your making plead, I don't need no-one else
You'll stay on my heart
That just won't give in
Right here's where we start
'Cause you send me

Round and around and around round
Round and around and around round
Round and around and around round yes
Round and around and around round yes

Round and around and around round
Can't help falling
Round and around and around round
That's what you do baby
Round and around and around round around
Round and around and around round tell me over and over
