## **Beverley Knight**

Still got my fire, I'm never cold
It burns within me, It's taken hold
Still finding mountains , I've yet to climb
I still get lonely, But never mind

I'm the same
Same
As I
As I ever was
The same
As I
As I ever was
True to the last word baby
Still making myself heard baby
I'm the same
Yeah
I'm the same

Still got my family, Old friends of mine I know they still will stand, The test of time Still feel my history, My future too Black gold and green, Red white and blue

Still got my temple. Each curve and line
Those who can't get with that , Ain't worth my time
Can't compromise no, That would be strange
I'm still that Aries lady, ain't nothin' changed
