

Heart Attack

Beware of Darkness

Come on, like anybody cares your mother died.
Let me tell the world to stop a universal of cry.

(Come and step right over my dead body.)
(Come and step right over my...)

Come on, like I could give a fuck you went to school.
Tell me, sugar, what did you learn when you were there now, honey?

(Come and step right over my dead body.)
(Come and step right over my...)

Karma, Karma, Karma
For the stone in your heart.
Well, you thought you're cool, you thought you're cool but you're not
.
Karma, Karma, Karma
And you're meaningless now!
Shake hands with a leper, hands with a leper,
Mimic a manic, mimic a manic,
Fuck like an angel, fuck like an angel,
Crack like a deviled egg.
If you thought I had a heart, come and knock, knock, knock on my chest.

Come on, like anybody cares you got cancer.
Why should anybody in this life care about you?
Or in this room?

Karma, Karma, Karma
For the stone in your heart.
Well, you thought you're cool, you thought you're cool but you're not
.
Karma, Karma, Karma
And you're meaningless now!
Shake hands with a leper, hands with a leper,
Mimic a manic, mimic a manic,
Fuck like an angel, fuck like an angel,
Crack like a deviled egg.
If you thought I had a heart, come and knock, knock, knock on my chest.

Karma, Karma, Karma
For the stone in your heart.
Well, you thought you're cool, you thought you're cool but you're not
.
Karma, Karma, Karma
And you're meaningless now!
Shake hands with a leper, hands with a leper,
Mimic a manic, mimic a manic,
Fuck like an angel, fuck like an angel,
Crack like a deviled egg.

If you thought I had a heart, come and knock, knock, knock on my chest.
