Gift from Virgo

I wish I could look in your eyes And tell you how I feel Right now inside Baby I know that it's real So real so real, so real How I wish I could be with you How I wish I wish I wish I could be with you right now

Every morning, every afternoon, every night I wanna be with you It don't matter if we go to the park or watch a play Stay in the hotel room all day I just wanna be with you I love everything about you From your old school tennis shoes To the way you move when you're dancing with me

Do you remember our first kiss It wasn't long enough Remember the first time We spent those weeks together They were not long enough All of our conversations All of your sweet pages They're never long enough

When it's time for me to leave It's so hard to say good-bye I never want to say good-bye I never ever want to say good-bye

One day we'll make love Finally I'll be yours Only you only you I could love you It's too late I already love you I love you I love you I love you
