## **Summertime**

Out of all the guys that approach me Walking up to me like they know me Your were the one that stayed aside Waited a while and took your time You don't know how impressing Your curiosity was to me It was the 4th day of July Looked in my eyes and saw that I

I wanted more than just a man I needed a friend Someone I can talk to someone who really listens When you touched my hand the sun got brighter then Trusting you I closed my eyes and felt our love begin

It was the summertime When we fell in love ot was the summertime Heaven shined on us it was the summertime Baby there is nothing like the summertime Summertime

Now it's been a year and were closer Fall in love again when I hold ya I know that God set you aside for me And now you are my prize Wanna grow old witcha And fill our house with your pictures Have a son for you A little girl for me Together we'll raise a family

Baby you're more than just a man You are my best friend Someone I can talk to someone who really listens When you touched my hand the sun got brighter then Trusting you I closed my eyes and felt our love begin

It was the summertime When we fell in love it was the summertime Heaven shined on us it was the summertime Baby there is nothing like the summertime Summertime

It was the summertime When we fell in love it was the summertime Heaven shined on us it was the summertime Baby there is nothing like the summertime Summertime Beyoncé
