

I'll Never Rest In Peace

Beyond Possession

I have seen places, been in rat races
And I will never know

Disrupting my soul with
Truth as my goal
Or so I am told

Do you remember why it was me?
That I can't believe
'Cause I don't believe it was me
I was off by myself minding my own business
Were you right behind me then?
I can't figure this mess
Did you take me by surprise?
Were you hiding in the dark?
Was it me you really wanted?
That evening in the park

I didn't want to die
I didn't want to die

Why did you take my life?
Was there something to gain?
I've just got to know why
I lived to die in pain
I'll never rest in peace

I died without reason
No personal treason
I lie deep in the ground

I hope you walk unaware
Your eyes burn when you stare
Feel it deep in your mind

Do you remember why you chose me?
That I can't believe
'Cause I don't believe it was me
I've got you right now
Do you remember why it was me?
That I can't believe
'Cause I don't believe it was me
I was off by myself minding my own business
Were you right behind me then?
I can't figure this mess
Did you take me by surprise?
Were you hiding in the dark?
Was it me you really wanted?
That evening in the park

I didn't want to die
I didn't want to die

Why did you take my life?
Was there something to gain?
I've just got to know why
I lived to die in pain

I'll never rest in peace

Just where I want you
Now I'll make you bleed
I'm inside your head
Destroy the life you led
Now you'll share my pain

You're down on your knees
Beg me, beg me please
I'll never let you go
Scream out, cry out
Feel my growing power
Now I watch you die
I'll never rest in peace
