All Fall Down

Daylight, let it stir you Let it Kiss the sleep out from your eyes Feel this weight now, lift into the sky now On and on and on On and on and on

Cradle, so deeply So sleeply when I close my eyes Sprinkle morning all over you and I On and on and on On and on and on

Sleep tonight Drains into the morning Let it feel alright It beckons like a warning

Trace it, embrace it See it crashing through this pretty light And yes you know me and how this thing of ours goes On and on and on On and on and on

And when we touch the ground We all fall down
