

# Beautiful Collision

Bic Runga

What a beautiful collision  
Things that go bump in the night  
With such beautiful precision  
Fate could create you and I

Do you know what it means  
To abandon your dreams  
To leave with the storms rolling by  
How the clouds on this day  
Come to take you away  
'Til you're gone, gone  
Far away from me

Beautiful beautiful night  
What a beautifully dangerous ride  
What a beautiful day  
We could hardly complain about  
What's going on in the sky

What a beautiful collision  
Things that go bump in the night  
With such beautiful precision  
Fate could create you and I

Do you know what it means  
To abandon your dreams  
To leave with the storms rolling by  
How the clouds on this day  
Come to take you away  
'Til you're gone, gone  
Far away from me

Beautiful beautiful night  
What a beautifully dangerous ride  
What a beautiful day  
We could hardly complain about  
What's going on in the sky

Move with the strangers  
That pass through your days  
If someone by chance  
Should call out your name  
When you're lost in the places  
You don't care to stay  
A blinding romance  
To blow you away
