

# Darkness All Around Us

**Bic Runga**

It's time to sleep and walk out  
It's far too late to talk about  
We took a night of absence now  
We walk among the town

At dawn a mist approaches  
There's not a soul to speak of  
It's time to change the map now  
And sail upon the seas

A storyteller told me  
There's darkness all around us  
The darkness all around me said  
"It's not just in your head"

A storyteller told me  
There's darkness all around us  
The darkness all around me said  
"It's not just in your head"
