

Music And Light

Bic Runga

Love's a walk on a wire
I tripped on the stairs
Makes you feel like a fool
If you're not aware
And it may not be wise to show how you feel
And it may not be what I thought to be real

Dance your way to my room
I need you to stay
It sends my head in a ruin
When you look my way
And I wake to the sound of songs in the street
There's music and light in all that I see

If you've got a love
Then you won't want to hesitate
If you really want
Maybe the whole world will stop and wait
There's music and light
Feels like the sun in my eyes

Dance your way to my room
I need you to stay
We can make up the rules
I hear what you say
I don't care much to talk of how things should be
There's music and light in all that we see

If you've got a love
Maybe you won't want to hesitate
If you really want
Maybe the whole world will stop and wait
There's music and light
Feels like the sun in my eyes
It's blinding and bright
Just like the sun in my eyes
