## **Take It Out Sometimes**

## **Bic Runga**

Wide, wider than the cut that's through my pride
That I'm locked inside a box
and I will hide under my bed
so I can take it out sometimes

Be, all I want to be but do I see that I'm only half a person All i need is a good night's sleep you know, I stay awake sometimes

Say, what you're trying to say are you afraid that I'm not listening anyway so do you wait till you can get it out straight do you think of me sometimes? is it more than just sometims when I'm down?

So do you wait till you can get it out straight Do you know all these things I've got to say

Do you think of me sometimes?
Is it more than just sometims when I'm down?
