## **That's Alright**

It brings you down It gets the better of you She's not around And yet it stays with you Nobody told you it was a waste of time

You're heading home Through all the streets you know You're on your won Don't wanna be alone Nobody holds you tonight

That's alright That's alright just Take your time to find what it is you're looking for That's alright That's alright just Hold it out a little more You'll know when you start to fall

And though you say that it's OK with you Although today has run away from you I won't believe you tonight

That's alright That's alright just Take your time to find what it is you're looking for That's alright That's alright just Hold it out a little more Nothing matters more when you're in love, no You're not in love, no Not in love You're not in love, no Not in love You're not in love, no Not in love You're not in love You're not in love Not in love
