## Without You

Walk around the bathroom Fill the sink Wander round the kitchen Make a drink

To occupy my time Is my only wish I've rearranged the magnets On my fridge

Without you now Without you now Without you now Without you now

Just can't make decisions Think what to do Turn on my television And think of you

Splash my face with water Brush my teeth Your toothbrush gone From where it ought to be

Without you now Without you now Without you now Without you now

Do, do, do, do
