

# Black Chandelier

Biffy Clyro

Drip, drip, drip, drip, drip  
Drip, drip, drip, drip, drip  
Drip, drip, drip, drip, drip  
Drip, drip, drip, drip

I shouldn't laugh but I know I'm a failure in your eyes  
I know it's daft but I guess that I know it deep inside  
It feels like we're ready to crack these days, you and I  
When it's just the two of us, only the two of us, I could die

You left my heart like an abandoned car  
Old and worn out, no use at all  
But I used to be free

We're gonna separate ourselves tonight  
We're always running scared but holding knives  
But there's a black chandelier  
It's casting shadows and lies

Drip, drip, drip, drip

I'll sit in silence for the rest of my life if you'd like  
Dressing our wings with industrial gloves made of wire  
Feel it penetrating the skin, we begin to relax  
When it's just the two of us, and a cute little cup of cyanide

You left my heart like an abandoned car  
Old and worn out, no use at all  
But I used to be free

We're gonna separate ourselves tonight  
We're always running scared but holding knives  
But there's a black chandelier  
It's casting shadows and lies

We're gonna separate ourselves tonight  
We're always running scared but holding knives  
But there's a black chandelier

You left my heart like an abandoned car  
Old and worn out, no use at all  
But I used to be free

We're gonna separate ourselves tonight  
We're always running scared but holding knives  
But there's a black chandelier  
It's casting shadows and lies

We're gonna separate ourselves tonight  
We're always running scared but holding knives  
But there's a black chandelier
