

Break a Butterfly On a Wheel

Biffy Clyro

I have swallowed all the light
Breathing darkness to be kind
We're surfen' the world for ourselves
The people know, the people know and

We are young we're going to change the world
We are young we're going to change the world
We're gonna change the world

What did Dad say?
He said the party's over
At the first chance
This is my last goodbye
I can change
My story's ending
Please put me out of my misery

Peter climbed a solemn hill
I took a fall he took a spill
We'll tumble this world for ourselves
But we remain misunderstood

Keep control we're gonna rise again
Take it all it's time to rise again
It's time to rise again

What did Dad say?
He said the party's over
At the first chance
This is my last goodbye
I can change
My story's ending
Please put me out of my misery

Well
I'll choke
On morsels of devils
Lovers emboldened with our strained hope
I don't know how much,
But I know that I love you still
I love you still
