

Children's Limbs

Biffy Clyro

How many times
Can I say that you've let me down?
Hold the torch and speak the truth
Don't piss around, don't piss around
Friends will let you down

I must be on your wall
Or in your soup
It's what flies do, it's what flies do
You should be the only one I ever knew
You should be the only one I trust this to

How many times
Have I asked you why you're still around?
Wordless things and thingless words confuse me
Don't let me down

The truth is they let you down

I'm not in your house
I'm in a zoo
Completed by me, completed by you

I must be on your wall
Or in your soup
It's what flies do, it's what flies do
You should be the only one I ever knew
You should be the only one I trust this to

I'm still alive
I'm still alive
I'm still alive
I'm still alive

The truth is they let you down
