

# Euphoria

Biffy Clyro

This ain't a purple bat  
This is a black smile  
Both arms are cut in half  
Its all that we got

Euphoria  
It will keep shining on down  
Euphoria  
We will keep dripping on down

Can't we force it?  
All the simple things  
This is not the same place for us now  
We are not like everybody else  
As I look at your envious face

This ain't a solemn nod  
Its the black look  
Everything's cut in half  
Its all that we got

Euphoria  
It will keep shining on down  
Euphoria  
We will keep dripping on down

Can't we force it?  
All the simple things  
This is not the same place for us now  
We are not like everybody else  
As I look at your envious face

The pieces are thrown from here  
Despite our chosen enemies  
All of our lifeboats  
Its smart, will disappear

Euphoria  
Euphoria
