## **Hawkwind**

**Biffy Clyro** 

The ladder's gone, so we can't climb the Parthenon Speak the language but no one's home, no one's home

When, Hands, Raise, it kills the fever And, we can raise forever

Those who call, reclaim hearts from golden jars Betray thanks through guided charm, guilded charm

When, Hands, Raise, it kills the fever And, we can raise forever

Can we listen to Hawkwind now?
Sleep holds no fortune only frowns
Should the sorrow erase you
It was all in your name, Sue
Let's just listen to Hawkwind now

When, Hands, Raise, it kills the fever And, we can raise forever

Can we listen to Hawkwind now?
Sleep holds no fortune only frowns
Should the sorrow erase you
It was all in your name, Sue
Let's just listen to Hawkwind now
