

Hiya

Biffy Clyro

I'm gonna leave you,
unless we fly together and
can you feel my heart stop,
can you feel my heart stop baby.
Your gonna change me,
lets leave town together and
can you feel my heart stop,
can you feel my heart stop.

Cos i am going to save the world for you,
so i wont have to tell the truth.

We could fly together and,
leave this town,
jump higher than we ever have,
don't look down,
look at the starless night,
we can shine forever and,
won't you please take my hand.

I will releave you,
if we climb together and
can you feel my dick slap,
can you feel my dick slap baby.
Im going to change you,
we can frown together and,
can you feel my heart stop,
can you feel my heart stop.

Cos i am going to save the world for you,
so i wont have to tell the truth.

We could fly together and,
leave this town,
jump higher than we ever have,
don't look down,
look at the starless night,
we can shine forever and,
won't you please take my hand.

We could fly together and,
Jump higher than we ever have,
look at the starless night,
we can shine forever and,
won't you please take my hand,
won't you please take my hand
