

# Its Always The Quiet Ones

Biffy Clyro

Embrace me  
Throw your arms around me  
Let's pretend our troubles make us happy  
Let's make-believe  
Let's make-believe

It's raining knives and daggers  
Run for your life

Slaughter me  
Throw your claws around me  
It certainly won't make us happy  
Let's make-believe  
Let's make-believe

It's raining knives and daggers  
Run for your life  
Take the right step  
Take the right step  
Take the right step

It's raining knives and daggers  
Run for your life  
Take the right step  
Take the right step  
Take the right step or you'll die

Take the right step  
Take the right step  
Take the right step or you'll die

Take the right step
