

Party On

Biffy Clyro

I've had a night on the brew
I've had a night on the brew
I've had a night on the brew
I've had a night on the brew

A different girl loves you
A different girl loves you
A different girl loves you
A different girl loves you

Don't cry it's possible to
Don't cry it's possible to
Don't cry it's possible to
Don't cry it's possible to

Feels like you've masked it
Looks like you've masked it
Looks like you've masked it
Looks like you've masked it

Visions remain in the mist
Visions remain in the mist
Visions remain in the mist
Visions remain in the mist

Looks like you've caught some
Looks like you've caught some
Looks like you've caught some
Looks like you've caught some

Paddles and rifles and shit
Paddles and rifles and shit
Paddles and rifles and shit
Paddles and rifles and shit

Stuck in the rafters
Stuck in the rafters
Stuck in the rafters
Stuck in the rafters

I guess the party is over
It's time to leave this town
Seems like the mist will rise
Look at the sky it's not going to break down
I guess the fun is over
Creed is found, turn up the sound
The rain has ceased I'm starting to dry out

I am an innocent boy
I am an innocent boy
I am an innocent boy
I am an innocent boy

Corrode all the bastards
Erode all the bastards
'rode all the bastards
'rode all the bastards

Raided by horses and things
Raided by horses and things
Raided by horses and things
Raided by horses and things

The party is over
The party is over
The party is over
The party is over

I guess the party is over
It's time to leave this town
Seems like the mist will rise
Look at the sky it's not going to break down
I guess the fun is over
Creed is found, turn off the sound
The rain has ceased I'm starting to dry out

Listen to me little buddy
The morals of me little buddy
Look all around, has anyone found quite what they're looking for?
