

## Prey Hey

Biffy Clyro

Conducting all your merry men  
Its fun until the pigs come in  
The bomb will drop a quart till two  
I heard that at your trigger school

Traitors will be pawns to save  
We struck at your destructive ways  
That's what i heard at trigger school  
And who i chose to slay

R: A special target that believe's in pirates  
I know, I'm leaving  
Before the action is  
We'll draw the crowd  
It was an accident

Friends can have a massive slaying  
Number numbers casualties  
Collect them in a sleeping bag  
There still asleep and not half bad

Traitors will be pawns to save  
We struck at your destructive ways  
That's what i heard at trigger school  
And who i chose to slay

R: (2x)

Come, Come, Don't let me hurt you  
Come, come, Don't let me hurt you  
Now run, hurt you now

Believe it when i say it  
I won't hurt you again

I promise I can prey hey  
Prey hey prey, hey, prey
