

Prey Hey

Biffy Clyro

Conducting all your merry men
Its fun until the pigs come in
The bomb will drop a quart till two
I heard that at your trigger school

Traitors will be pawns to save
We struck at your destructive ways
That's what i heard at trigger school
And who i chose to slay

R: A special target that believe's in pirates
I know, I'm leaving
Before the action is
We'll draw the crowd
It was an accident

Friends can have a massive slaying
Number numbers casualties
Collect them in a sleeping bag
There still asleep and not half bad

Traitors will be pawns to save
We struck at your destructive ways
That's what i heard at trigger school
And who i chose to slay

R: (2x)

Come, Come, Don't let me hurt you
Come, come, Don't let me hurt you
Now run, hurt you now

Believe it when i say it
I won't hurt you again

I promise I can prey hey
Prey hey prey, hey, prey
