

Sad Sad Songs

Biffy Clyro

I only listen to sad sad songs
I only play in the summer.
I only think about what's gone wrong.

Time escapes
You don't.

I watch your daughters ignore all lies
I find my wait out the tunnel
My teeth are trippin, my feet are cold

Rise alone
Die alone

We'll take a bite
We'll take a bite
turn this all around
that's what my father told me
that's what my father told me
I can't stand it
livin' on the frontline
baby feel stranded
standing my last sight

your indecisions is like a ball
on holiday in the summer
your tension's rising it can't go wrong

Dynamite breaks
Time won't.

I watch your daughters ignore all lies
I find my wait out the tunnel
My teeth are trippin, my feet are cold

Rise alone
Die alone

We'll take a bite
We'll take a bite
turn this all around
that's what my father told me
that's what my father told me
I can't stand it
livin' on the frontline
baby feel shiny
standing my last sight

I believe it when you say
you'll turn this all around
I believe it when you say
you'll turn this all around

I can't stand it
livin' on the frontline
baby feel shiny
standing my last sight
