

## Small Wishes

Biffy Clyro

I saw a man, he stole our national thunder  
He had to leave on a glorious ride

He was lovesick but didn't know  
That he worshiped all we wrote  
I'm sure he loved that back and forth  
But didn't understand it, no

The lizard shit and held it under our nostrils  
Don't believe the lamb, believe the wolf

He was lovesick but didn't know  
That he worshiped all we wrote  
I'm sure he loved that back and forth  
But didn't understand it, no

I see a land, they'll never show  
Cause this is not what we chose  
No new tomorrows, no change of roles  
We'll never reap what we sow  
For this is not what we chose  
Cause this is not what we chose  
No new tomorrows, no change of roles  
We'll never reap what we sow

He was lovesick but didn't know  
That he worshiped all we wrote  
I'm sure he loved that back and forth  
But didn't understand it, no
