We're gonna tear this apart With every inch of your heart We'll watch your all go astray Different in every way

Keep on
Keepin' on
I don't know whether I belong

Could this be
A tragedy
You had it all
It set us free
You still say no
I say please
Street love love love love

We share a skeleton heart Let's shape the bone make it sharp It trickles all down your face Essential in every way

Keep on
Keepin' on
I don't know whether I belong

Could this be
A tragedy
You had it all
It set us free
You still say no
I say please
Street love love love love

We could be
A travesty
Been holdin' on
What a dream
You still say no
I say please
Street love love love love
Street love love love love

Could this be
A tragedy
You had it all
It set us free
You still say no
I say please
Street love love love love
Street love love love love
