

## The Go-Slow

Biffy Clyro

Remember when, the insects fed off all our moments  
Can't deny, the structure's failed us and the go-slow  
Love her then but killer now, catch me I'm falling down  
Love her then but killer now

Decrease the movement, would you switch transition, switch tran  
sition  
Decrease the movement, love me 'til I die, I don't expect more

Remember the time, we lost ourselves to being lonely  
Without love, we sing and dance and kill together  
Love her then but kill her now, catch me I'm falling down  
Love her then but kill her now

Decrease the movement, would you switch transition, switch tran  
sition  
Decrease the movement, love me 'til I die, I don't expect more  
Catch me I'm falling down, catch me I'm falling down...
