

Time As An Imploding Unit/Waiting For Green

Biffy Clyro

I am waiting for an answer to,
all the lies they told to try and spoil you

We were half a mile away from you, facing white, facing white
Can't have lost the sweetness of your heart
While waiting for green, waiting for green
I have grown up, you are grown
and feeling stronger, feeling stronger
Memories fade but regrets just
make them stay forever, last forever
I have grown up, you are grown a
nd feeling stronger, feeling stronger
Memories fade but regrets just
make them stay forever, last forever

Growing up, growing up, growing up,
growing up, growing up, growing...

Everything you left me was the same as I can
Everything you wanted was the same as I can
Everything you needed was the same as I can
