

## Time As An Imploding Unit/Waiting For Green

Biffy Clyro

I am waiting for an answer to,  
all the lies they told to try and spoil you

We were half a mile away from you, facing white, facing white  
Can't have lost the sweetness of your heart  
While waiting for green, waiting for green  
I have grown up, you are grown  
and feeling stronger, feeling stronger  
Memories fade but regrets just  
make them stay forever, last forever  
I have grown up, you are grown a  
nd feeling stronger, feeling stronger  
Memories fade but regrets just  
make them stay forever, last forever

Growing up, growing up, growing up,  
growing up, growing up, growing...

Everything you left me was the same as I can  
Everything you wanted was the same as I can  
Everything you needed was the same as I can
