

Time Jazz

Biffy Clyro

I've had a happy life, at least that's what I'll say
Confusion is my only vice
it makes me concentrate

It's fine, there's a throbbing in my shoulder
It's fine, don't think it's getting bigger
It's fine, I'll dig it out to ease the pain
I can't face final fortunes ever again

Time jazz confronts us all
Look how big, now look how small
Crazy shaved, a circle pit
Then drew it on a mine, now done
Time jazz, kaleidoscopes
frog hands tied up now
