

If I had my time again
I would do it all the same
And not change a single thing
Even when I was to blame
For the heartache and the pain
That I caused throughout my years
How I loved to be your man
Through the laughter and the tears

Situation no win
Rush for the change of atmosphere
I can't go on so I give in
Gotta get myself right outta here

Now I'm fully grown
And I know where it's at
Somehow I stayed thin
While the other guys got fat
All the chances that I've blown
And the times that I've been down
I didn't get to high
Kept my feet on the ground

Situation no win
Rush for the change of atmosphere
I can't go on so I give in
Gotta get myself right outta here

And of all my friends
You've been the best to me
Soon will be the day
When I repay you handsomely
Broken hearts are hard to mend
You know I've had my share
But life just carries on
Even when I'm not there

Situation no win
Rush for the change of atmosphere
I can't go on so I give in
Gotta get myself right outta here

Situation no win
Rush for the change of atmosphere
I can't go on so I give in
Gotta get myself right outta here

Gotta get myself right
Gotta get myself right
Gotta get myself right
Outta here

Gotta get myself right
Gotta get myself right
Gotta get myself right
Outta here
