

Please Baby

Big Bad Voodoo Daddy

Please baby, let's get it right
I don't think I can take it, one more night
I know I love you, I love you
I love you as though the stars are mine
So please baby, show me that you are mine

Please baby, let's not fight
I don't think I can take it, one more night
I know I love you, I love you
I love you as though the stars are mine
So please baby, show me that you are mine

Please baby, let's keep it right
I wanna make love to you baby all through the night
I know I love you, I love you
I love you as though the stars are mine
So please baby, show me that you are mine
