

## Please Baby

**Big Bad Voodoo Daddy**

Please baby, let's get it right  
I don't think I can take it, one more night  
I know I love you, I love you  
I love you as though the stars are mine  
So please baby, show me that you are mine

Please baby, let's not fight  
I don't think I can take it, one more night  
I know I love you, I love you  
I love you as though the stars are mine  
So please baby, show me that you are mine

Please baby, let's keep it right  
I wanna make love to you baby all through the night  
I know I love you, I love you  
I love you as though the stars are mine  
So please baby, show me that you are mine
