

Sleep!

Big Black

My head on the ground with my mouth full of dirt
Your foot in my face is what keeps me alive
When it's over, when it's over, when it's over
When this is over, I want sleep

Opened the door with a gun in his hand
Sometimes I think I'm gonna catch it in the back
Feed me a line, I've had a few
Clean my clock, guess I had it coming

When it's over, when it's over, when it's over
When this is over, I want sleep

Hey hey hey
Hey hey hey
Hey hey hey
Hey hey hey
