Sleep!

Big Black

My head on the ground with my mouth full of dirt Your foot in my face is what keeps me alive When it's over, when it's over, when it's over When this is over, I want sleep

Opened the door with a gun in his hand Sometimes I think I'm gonna catch it in the back Feed me a line, I've had a few Clean my clock, guess I had it coming

When it's over, when it's over, when it's over When this is over, I want sleep

Hey hey hey Hey hey hey Hey hey hey
