

## Little Mama

Big Brovaz

Hey lil' moma why don't  
you ever smile?  
I know life ain't easy  
Bringing up a child, but yo

Listen lil' moma  
Cause I'm feeling your pain  
I wonder if your baby daddy  
out there feeling the same

Where your friend at lil' moma?  
They got plans tonight at the club  
Wanna get themselves  
a man tonight

They done left you all  
alone, huh lil' moma  
Under pressure on your own  
Dealing with the drama  
Can you turn to your  
family and ask for help  
Or would they turn you away  
Cause they got problems they self  
Lil' moma gotta crib  
But it's hell there  
No frills gotta live on the welfare

Oh lil' moma tell me what I can do  
To make you smile just one time  
And your little one too

Lil' moma just know  
Some of us men are true  
Lil' moma, this ones for you  
Uh, lil' moma

Don't worry, you're stronger  
Just hold on a little bit longer  
Don't worry, you're stronger  
Just hold on a little bit longer

Girl I know your man has left you  
With a child on your own  
And you find it hard to cope  
with all the stress alone  
And there's nowhere to run  
Can't have any fun  
Looking for someone to  
be there for you  
All your hopes in love are gone  
You don't have strength to believe  
Gonna take time but you will find that special one that you need  
But there's no need to  
rush, girl take your time  
And you will find the one  
that will be true

Hey little mama why  
you so depressed?  
I know you wondering how  
the hell you got in this mess  
Your baby daddy's left  
baby's last nappy wet  
You can't turn to family  
when you feel neglect  
And I bet you did a couple  
of things that you regret  
There's always hope there never forget, all you gotta do  
is try harder  
My mama made it on  
her own without my father  
Me and two brothers  
wonder how she did it  
Maybe its because she never  
gave up and stayed committed  
Barely 16 now gotta deal with this  
The pressure make you wanna  
slit your wrist but don't  
The lord never gives you  
more than you can handle  
If you keep your head up ain't  
no telling what you can do  
Little Mama keep the faith,  
God will keep you safe  
Under his wing all you gotta  
do is turn to him  
And in the end you won't  
regret a thing
