

# Come Back To Me

Big Country

The day they had a party  
Right out in the street  
Flags and flowers and singing  
For the homecome hero's treat

I sat in the kitchen  
Without a fire on the range  
I knew this house had lost the cause  
To ever make me warm again

Come back to me  
Days are all too long  
Come back to me  
You never should have gone  
I was so young and full of pride  
And you were wild and strong  
I never knew how weak I was

I watched them gather round him  
When he stepped down from the car  
While tears fell on my cigarette  
He handed out cigars

I have your child inside me  
But you will never know  
I never will forget you  
While I watch that child grow

Come back to me  
Days are all too long  
Come back to me  
You never should have gone  
I was so young and full of pride  
And you were wild and strong  
I never knew how weak I was

I was so young and full of pride  
(I never, I never, I never...)

I will always be here  
Fading by the day  
I will wash the bloody hands  
And cast the bowl away

As the years hang on me  
You will always be young  
And one day I will lie down  
Where the rose was flung

Come back to me  
Days are all too long  
Come back to me  
You never should have gone  
I was so young and full of pride  
And you were wild and strong  
I never knew how weak I was
