

# One Great Thing

Big Country

If there's one great thing to happen in my life  
If there's one great day, if there's one great height  
Let it be the time for peace; let it be the time of right  
If there's one great thing to happen in my life

I've seen too much of what fighting has done  
I've seen too much anger; I've seen it far too young  
And talk will come to nothing while the shouting still goes on  
But we are only singers and too many songs are sung

If there's one great thing to happen in my life  
If there's one great day, if there's one great height  
Let it be the time for peace; let it be the time of right  
If there's one great thing to happen in my life

I've seen the way of martyrs; I've seen the way of kings  
I've seen the hope that love can bring  
I only hope what pleases me will also please you  
For mine can never be the hands that make a dream come true

If there's one great thing to happen in my life  
If there's one great day, if there's one great height  
Let it be the time for peace; let it be the time of right  
If there's one great thing to happen in my life
